## PROGETTI ARCHITETTONICI **STONETALK**

Una riflessione sulla forza primitiva ed essenziale della pietra e sulle differenti finiture che originano dalle sue diverse lavorazioni, ecco a cosa si ispira la collezione Stonetalk. Il risultato è una pietra "archetipo", protagonista e discreta allo stesso tempo, destinata ad assumere diversi aspetti in superficie a seconda delle lavorazioni effettuate. Stonetalk mette in scena l'autenticità e la capacità di cogliere i dettagli più sorprendenti delle lavorazioni della pietra, capace di raccontarsi e di valorizzare la fisicità dell'opera architettonica, concreta, essenziale e funzionale. Ogni lavorazione trasforma la pietra rendendola ideale a differenti utilizzi. Una collezione completa di elementi per poter creare un dialogo armonioso tra ambienti interni e spazi esterni, e tecnica a tal punto da superare tutti gli standard internazionali richiesti dalla moderna progettazione.

#### 4 ARCHITECTURAL PROJECTS

A reflection on the primitive and minimalist form of stone and on the different finishes that originate from the different ways of working this material: this is what inspired the Stonetalk collection. The result is an "archetypal" stone, a shining star, yet discreet at the same time, destined to assume different appearances in surfaces depending on the way it is worked.

Stonetalk features the authenticity and the ability to pick up and focus on the most surprising details of stone working, able to illustrate and enhance the physical side of a work of architecture: concrete, essential, functional. Each process transforms the stone, making it ideal for different uses.

A complete collection of elements that creates a harmonious dialogue between indoor and outdoor spaces, and technical to the point of passing all international standards required by modern design.

# 3 FINITURE

## MINIMAL - MINIMAL LAPPATO MINIMAL TECNICA

Dall'attenta selezione di rigorose superfici della pietra nasce la Minimal; elegante e preziosa nella versione lappata, essenziale e funzionale in quella tecnica.

## MARTELLATA MARTELLATA TECNICA

La martellata prende vita dalla lavorazione di martellatura sulle superfici più venate della pietra. La texture così assume una nuova dinamicità fluida e variegata. Nella versione tecnica la superficie è particolarmente antiscivolo, tanto da renderla perfetta per spazi esterni, pubblici e privati.

## RULLATA

Con un effetto scanalato e sfaccettato sulla superficie ottenuto con il processo di rullatura, questa versione assume un look tridimensionale di grande impatto visivo, ideale soprattutto a rivestimento.

# 5 COLORI

Ciascuna versione è sviluppata in una palette cromatica di 5 nuance dove il bianco è l'elemento che, per contrasto e complementarità, si abbina sia ai colori caldi, sia alle tonalità fredde.

## 5 COLOURS

Each version is developed in a colour range of 5 shades, where white is the element that, by contrast and complementary nature, combines with both warm shades and with cold tones.

## 3 FINISHES

### MINIMAL VERSION - MINIMAL LAPPATO VERSION - MINIMAL TECNICA

From the careful selection of rigorous stone surfaces comes Minimal; elegant and precious in the semi-polished version, minimalist and functional in the technical version.

### MARTELLATA VERSION - MARTELLATA TECNICA

The hammered version comes about from the hammering process on the most veined surfaces of the stone. The texture thereby assumes a new fluid and varied dynamic. In the technical version, the surface has outstanding anti-slip properties, making it perfect for public and private outdoor areas.

### RULLATA VERSION

With a grooved and faceted effect on the surface obtained through the rolling process, this version assumes a three-dimensional look with a strong visual impact, particularly ideal for wall tiles.
